WEIGHING HOOK

PCE-HS 50N

- **Useful for forklift and industrial applications and as well as recreational fishing and hunting, the digital weighing hook hanging scale features:**
- **Weight range up to 50 kg / 110 lbs**
- **Battery operation (3 x AA 1.5 V batteries provided)**
- **Auto-off, power-saving function (can be deactivated, if preferred)**
- **Multiple, full-range tare (useful when adding weighing objects or for the production of mixtures)**
- **PEAK hold function and measurement conversion to Newton (N) (enables use as a simple force meter)**
- **Animal weighing function (calculates an average of several values, allowing live animal weighing)**

The weighing hook offers a quick and cost-effective way to weigh larger items. The weight simply needs to be hung freely on the weighing hook. The weighing hook is supplied with a hook and a snap hook for this purpose. The weighing hook can therefore be used both in the industrial sector and in the private sector (e.g. for hunting, fishing, etc.). The weighing hook has an animal weighing function that enables live animals to be weighed.

To do this, the weighing hook calculates an average value from several weighings. Furthermore, the weighing hook can also be used as a simple force measuring device, as the weighing hook has been upgraded with a PEAK Hold function (maximum value display) and the measured value conversion to Newtons. The weighing hook has an automatic switch-off function, which can be deactivated, as well as the option of carrying out multiple tares, which is very useful when weighing or preparing mixtures.

Specification

Weighing range	
Measuring range from	200 g
Measurement range up to [Max]	50 kg
Resolution [d]	20 g
Accuracy	±80 g

General technical data	
Measuring functions	HOLD, peak
Units	kg, N, lb
Display type	LCD with backlight
Digit size [WxH]	Height: 19 mm
Automatic power-off	5 min
Housing	ABS (acrylonitrile-butadiene-styrene copolymers)
Tare range	Multiple tare over the full range
Menu language	English, English (GB)
(Rechargeable) battery	3 x 1,5 V AA battery , Alkali-manganese
Capacity	3000 mAh
Operating conditions	5 ... 35 °C , 0 ... 90 % RH
Storage conditions	0 ... 60 °C , 0 ... 90 % RH
Dimensions (L x W)	140 x 80 mm
Weight	400 g
